ABOUT ME:

"I'm a **Full-Stack Web & Android Developer** with hands-on experience in building custom, responsive, and secure solutions. My journey encompasses building complex systems like a **Faculty & Student Management App (Flutter/Firebase)**, e-commerce storefronts, and interactive web platforms. I specialize in **WordPress**, **PHP**, and **Mobile App Development**. With expertise in **Cybersecurity foundations**, I focus on creating modern, user-friendly, and secure digital products. I am now seeking opportunities to collaborate with dynamic teams and contribute to meaningful projects."

EDUCATION: **(2022 – 2026)**

University of Punjab | Lahore
Bachelor of Science in Information Technology (BS-IT)

TECHNICAL SKILLS:

• **Languages & Frameworks:** Flutter, Dart, PHP, JavaScript, HTML, CSS, Bootstrap, WordPress.

• **App Development:** Android Development, Mobile UI/UX, Firebase Integration.

• **Web Development:** WordPress (Themes, Plugins, Woo Commerce), Custom Websites, Responsive Design.

• **Cybersecurity:** Foundations of Cybersecurity, Risk Management

• **Backend & Database:** PHP/MySQL, Cloud Firestore, REST APIs

• **Tools & Workflow:** Git, GitHub, VS Code, Hosting Deployment, SEO Tools

---

WORK EXPERIENCE

1. Full-Stack Web & Android Developer | Freelance | *(2022 – Present)*

- Developing secure, high-performance **Flutter & PHP** apps for diverse clients.
- Engineered **Codex** and **DonutDilemma** using **PHP (PDO)** for secure data handling.
- Integrated **Firebase** for real-time DB and Auth in cross-platform mobile apps.
- Built 100% responsive, mobile-first interfaces with modern JS frameworks.

2. Web Development Specialist | Govt Digital Portal (PSDI) | *(Feb – Jul 2024)*

- Developed a secure **Full-Stack CMS Blog** using **PHP (PDO) & MySQL**.
- Created responsive UI components with **Bootstrap** for full cross-browser support.
- Optimized backend logic to significantly improve site loading speeds and performance.

CERTIFICATIONS & TRAINING

- **Google Cybersecurity Professional Certificate** | *Coursera (2023 – 2024)*
    - Certified in **Foundations of Cybersecurity** and **Managing Security Risks**.
    - Focused on identifying network vulnerabilities and protecting digital assets.
- **Flutter & Dart App Development Bootcamp** | *Udemy (2025)*
    - **Nexus Lead Project:** Developed a multi-role **Faculty & Student Management App** using Flutter and Firebase.
    - Mastered **State Management**, **REST APIs**, and **Cloud Firestore** integration.
- **WordPress Development Specialist** | *DigiSkills - Ministry of IT & Telecom (2025)*
    - Specialized in theme customization, SEO optimization, and e-commerce (WooCommerce) setup.
- **Full-Stack Web Development Bootcamp** | *PSDI / Government Digital Portal (2024)*
    - Completed intensive training in **PHP (PDO)**, **MySQL**, and **Bootstrap**.
- **Modern Web Development Certificate** | *Alison (2023)*
    - Mastered responsive design and interactive UI components using **HTML5, CSS3, and JavaScript**.

PROJECTS

Nexus Lead: Faculty & Student Management App (Final Year Project) *(Flutter, Firebase, Dart, Cloud Firestore, Provider)*
- **Academic Automation:** Developed a cross-platform app to digitize faculty/student records with role-based access (Admin, Faculty, and Student).
- **Real-time Engine:** Integrated **Cloud Firestore** for live attendance, result processing, and push notifications.
- **Security:** Implemented **Firebase Auth** and security rules for sensitive data protection.

Codex: Interactive Coding Platform *(PHP, MySQL, HTML, CSS, JavaScript)*
- **Management System:** Built a custom-coded platform for sharing resources with a secure **PHP (PDO)** backend.
- **Data Protection:** Ensured system security against common web vulnerabilities and SQL injections.

DonutDilemma: E-commerce Storefront *(PHP, MySQL, Bootstrap, JavaScript)*
- **Full-Cycle E-commerce:** Engineered a food delivery system with a dynamic cart, order tracking, and custom Admin Dashboard.
- **Admin Control:** Real-time inventory management and sales analytics integration.

Luxury E-commerce & Food Delivery Systems | (PHP, MySQL, JS)
- **End-to-End Dev:** Built full-stack platforms (e.g., DonutDilemma) with dynamic carts and secure checkouts.
- **DB Management:** Optimized **MySQL** databases for high-volume inventory and customer data.
- **Responsive Design:** Ensured 100% cross-device compatibility for a seamless user experience.

Cooking Book: Recipe Management Portal *(HTML, CSS, JS, PHP)*
- **UX/UI Optimization:** Created a responsive site with advanced search and category filtering for better user engagement.
